

How to add a calendar to a playlist

Go to 'calendar' in the menu.

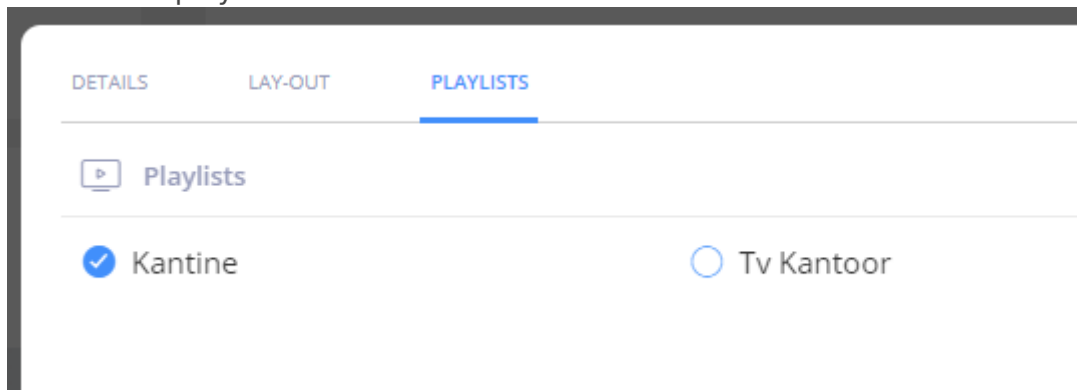

Right-click on a calendar in the PrimeTime section and click on 'edit'.

Choose which layout you want to use.

Choose the playlist where the calendar needs to be added to.

The calendar is now added to the playlist as a calendar post.

- Three icalendar items will shown in the calendar post.
- As soon as you add an item to this calendar (via calendar) the item appears in the PrimeTime calendar post on screen.
- The calendar post item will only visible if there is at least 1 Calendar item created.
- If there are more then 3 items, a extra calendar post will be added to the playlist.
